Aubree Lawrence
FULL STACK DEVELOPER

Whether in front of the classroom or behind the scenes I've made a career out of helping people expand their horizons through technology. I'm ready to combine my tech and startup background with my newly acquired training in JavaScript, Ruby, and related frameworks and libraries, to contribute to a mission-driven company in the Boston area.

RELATED EXPERIENCE

Web Developer Immersive
General Assembly
Mar 2018 - Jun 2018

- Three month full-time program for full-stack developers
- Built projects using JavaScript, Ruby on Rails (see below)
- Project portfolio can be found at aubreeL.com

Digital Content Project Manager
Shoobx, Inc.
May 2014 - Feb 2018

- Enhanced front-end code to improve usability and experience
- Used Git and Jenkins in a collaborative coding environment
- Conceived, designed, and developed product knowledge base

Instructional Technologist
Harvard Law School
July 2010 - Feb 2013

- Designed resource-rich, intuitive course websites
- Researched and educated faculty on new technologies
- Diagnosed and addressed issues with courseware as needed

Product Launch Manager
Venture Café
Apr 2009 - Jan 2010

- Solicited community support through public events
- Met with early Café stakeholders, including VCs and vendors
- Articulated first blueprint for Venture Café's mission
